

Webinar Series 2020

Business in Printed Intelligence is taking off and already impacts many industries. It's high time to learn about the wide opportunities of Printed Intelligence from industry pioneers and tomorrow's leaders. Gain valuable insights into why Printed Intelligence technologies are the key ingredients to next generation products. Smarter products and smarter production in a changing world.

This summer, for the first time ever, PrintoCent brings you an eye-opening 6 part webinar series on Printed Intelligence. Brought to you in collaboration with Ynvisible, we are organizing 3 insightful live webinar sessions in June and 3 more in September. Members of the PrintoCent Industry Cluster will showcase a wide range of business applications and discuss where business is headed with Printed Intelligence. This is your chance to connect directly with the experts. The sessions are free, but hurry! Each live webinar session is limited to 500 participants.

Warm welcome to our first session, on Thursday June 4th at 15:00 (CET) / 9:am (EST)

- Session 1: PrintoCent – Boosting the Industrialization and Commercialization of Printed Intelligence

Description

PrintoCent has been boosting commercialization of Printed Intelligence and Electronics for over 10 years. Today, Printed Electronics Systems, Structural Electronics in glass, plastics and laminates, and Rapid Diagnostics are spreading to a wide range of end applications in automotive, interior design, premium consumer goods, packaging, health and wellness – to name a few. Besides this, totally new application are emerging in in areas such as fresh water, gasket and radiation monitoring, where companies are finding solutions to realize autonomous IoT systems combined with wireless communication.

This first session is a multifaceted introduction to Printed Intelligence, the lead trends driving adoption, and the existing ecosystems that bring this technology field to market. Learn why companies as diverse as Movesole, Nokia and Ynvisible are in this space and why they've built long standing connections into the PrintoCent network.

Speakers

- Antti Kemppainen, VTT: Introduction to Printed Intelligence – highlights
- Jukka Jaatinen, PrintoCent: Boosting commercialization of Printed Intelligence
- Eero Kaikkonen, Movesole Oy: Why Printed and Hybrid Electronics - case Movesole
- Juha Hannula, Nokia Oyj: 5G Benefits for Unmanned Moving Objects
- Jani-Mikael Kuusisto, Ynvisible: Things Alive! Why Printed Intelligence. Why PrintoCent. The story of Ynvisible Interactive Inc.
